List of Equipment present in Offices as updated in HaMoS	55

Introduction

With the advent of technology, computer, accessories and communication equipment have become an integral part in all walks of life. It has changed the Governance not only in provinces or state but throughout the world.

These equipment forms the important assets of every office functioning in today's world. This makes the management of stock inventory a necessity, which forms the basis for the infrastructure set up of a modern office. The durability, reliability and scalability of the assets can be analysed only if a proper management of the inventory is maintained. Implementation of the asset management software – HaMoS – Hardware Monitoring System – is an endeavour to properly manage the ICT assets of the department.

Computerization of the Department

Brief History

Computerization started in the department way back in the late 90s much before the introduction of VAT system. An attempt was made to computerize the department when it was in the KGST regime. With the help of the then IT service provider, KELTRON, the department purchased ICT equipment for implementing KCTS – Kerala Commercial Taxes System, application software for tax administration implementing KGST ACT.

Within a short span of time, a tremendous advance in technology occurred with the widespread popularity of internet and web based solutions. The advancement in technology made the equipment already purchased by the department obsolete. Meanwhile, the Government of India decided to implement Value Added Tax System from 2005 onwards. Hence the department was forced to abandon KCTS and it was decided to utilize the infrastructure and ICT equipment purchased for KCTS in VAT.

Web based software was essential for the implementation of VAT. Centralized server and related equipment were purchased at the headquarters, for implementing Kerala Value Added Tax Information System, application software developed by M/s CMC Ltd. KVATIS was implemented in a phased manner throughout the State and its successful implementation made the department a frontrunner among the e-Governance champions of the State.

Maintenance of ICT Equipment

By this time, the department has come to a long way in doing computerization. Every office in the department is computerized and ICT equipment has become a part of the daily office work. The offices started adopting the e-mail service for communication which had also lead to the widespread use of ICT equipment. Further, the e-governance initiatives of the State government like SPARK, e-office, RR online, RIMS, e-Audit etc have made the ICT equipment an inevitable part of

daily work. Managing the ICT equipment has always been a challenging task for the department as the personnel involved in the work often get transferred and the whole things need to be reworked again. The equipments are purchased from headquarters as well as district offices, the details of which may not be available at headquarters. The direction to maintain stock register at each office was also not found fruitful. Before going for any purchases, the age and condition of the ICT equipment already present in each office has to be ascertained. This necessitated the collection of details regarding the inventory present at each sub office, by the headquarters. The details thus collected were subjected to analysis before arriving at the number of equipment to be purchased or replaced. This is indeed a cumbersome job as it takes much time to gather data about the equipment scattered across the State and is a recurring process with each new purchase.

Bulk purchase of desktop computers was made during 2009 and 2012. The gap analysis done during 2009 after the implementation of VAT necessitated the purchase of desktops, printers and UPS during 2009 for the successful implementation of VAT. The PCs purchased during the start of computerization became obsolete and the around 965 desktop computers with open source operating system – Ubuntu - were purchased from M/s HCL on a buyback scheme during 2012.

The warranty period of new systems in bulk purchases are usually three years. These are then given for Annual Maintenance Contract to the competitive bidder. The computers, printers and UPS purchased during 2009 and earlier for which the warranty coverage has expired were given for AMC to M/s AccelFrontlineLimited. The AMC included all the working equipment whose warranty has expired, after verification by the vendor.

The lessons learnt

Usually any Department when starts any project implementation, looks at it only unidirectionally, i.e. implementation of the project. That also goes through various ups and downs. However, other complementary things are always either not looked into or forgotten. After implementing project, there was no systematic approach to

understand the situation regarding procured hardware. The decision making even to replenish the stocks, achieve scale of economies and make the whole thing cost effective became very difficult. This resulted into supplies where it is not required with that much intensity and vice versa. As the whole inventory becomes huge over a period of time then it becomes extremely difficult to arrive at cost efficacy without all correct information at hand especially with respect to IT hardware.

In this back ground, when the issue of requirement of hardware was discussed in June – July 2015 with the ITMC team, it was realized that there is an urgent need to establish a system to keep track over procured hardware and its deployment. To set up a protocol for supplies and replenishing the age old hardware as per the Government stipulations, as mentioned earlier, it was a big challenge to the ITMC wing because along with other works this was to be accomplished.

Hardware Monitoring System (HaMoS)

Managing the ICT equipment present in the offices spread across the State is a herculean task without a database of the available equipment. It is also understood that the details of maintenance of an equipment whether in warranty or AMC is not usually communicated to the end user properly. Hence the damaged system in AMC/warranty is not properly serviced by the vendor.

After series of internal discussions, while discussing e Office initiatives, it was decided and requested to NIC to assist Commercial Taxes Department to implement hardware management system developed by NIC. As instructed by the Commissioner in the meeting on IT initiatives with ITMC on 08/12/2015, it was intimated to NIC about the decision to implement the current version of HaMoS on 28/12/2015. Shri.Ajith along with his officers assisted ITMC to take further steps to establish HaMoS in Commercial Taxes Department.

Hardware Monitoring System (HaMoS) is centralized software to manage the ICT equipment present in the department. The software also has facility to register complaints of the equipment with the vendor. The end user of the software is the office user who records the details of equipment present in the office. There are District Administrators who manage the office users and update the purchase orders of the local purchases made from the concerned districts. There is a State Administrator who manages the District Administrators and who is responsible for the updation of State-wide purchase details in HaMoS.

The software was implemented in March 2016 with a direction to update the details of ICT equipment in all offices of the department. The HaMoS user manual provided by NIC was also communicated to the District offices. User id for 15 District Administrators and a State Administrator were created by NIC. The District administrators created office user for each office present in the District.

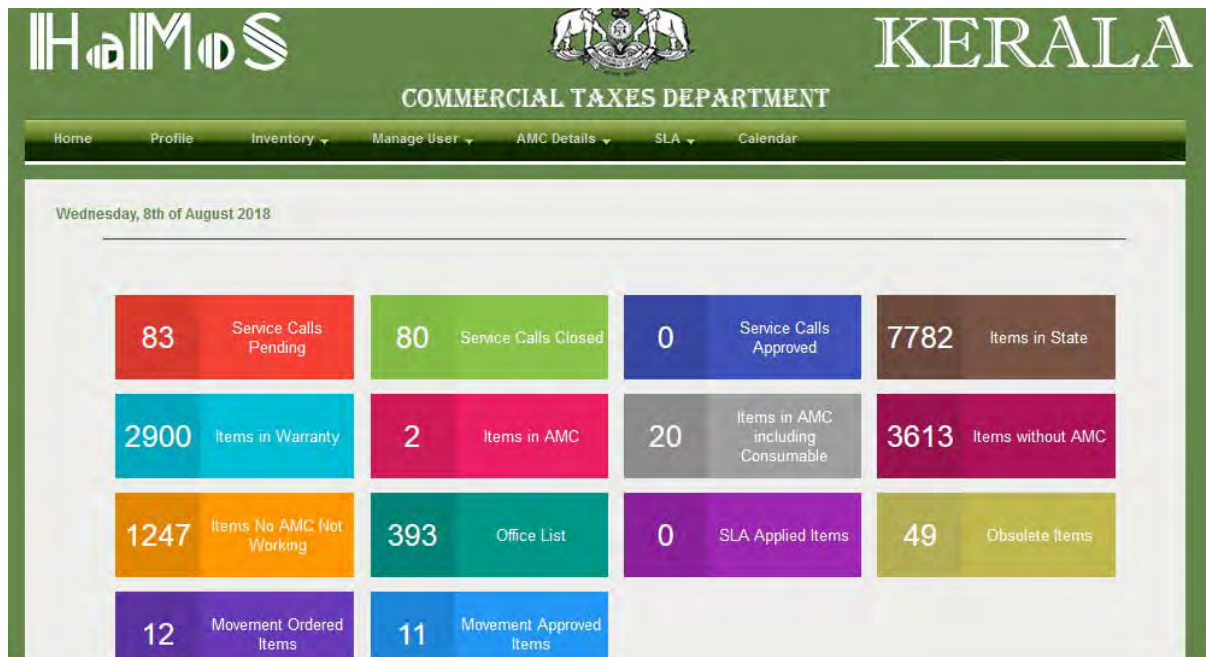

Once the State System Administrator and the District Administrator update the purchase order details in HaMoS, the office users can start data entry of the equipment present in their office. The Data entry of equipment from almost all offices has been completed by this time. It is reported that the details of all traceable equipment present in the offices purchased using government fund are updated in

HaMoS. There have been corrections/filtrations in the data entered as the details of Maintenance and Supplier once entered are not allowed for further correction. Similarly, there was no facility available in HaMoS for equipment transfer between offices. Numerous communications were made with NIC to filter the data entered in HaMoS and various changes were suggested in the software for better tuning.

Types of HaMoS Users and their functions

- ▶ State Administrator
 - Manage District Administrators
 - Update Statewide Purchase orders
- ▶ District Administrator
 - Manage Office Users
 - Update PO of District Purchases
- ▶ Office User
 - Update the equipment details

By October 2017, second version of the software was released by NIC incorporating certain suggestions reported by the Department. The facility for equipment transfer,

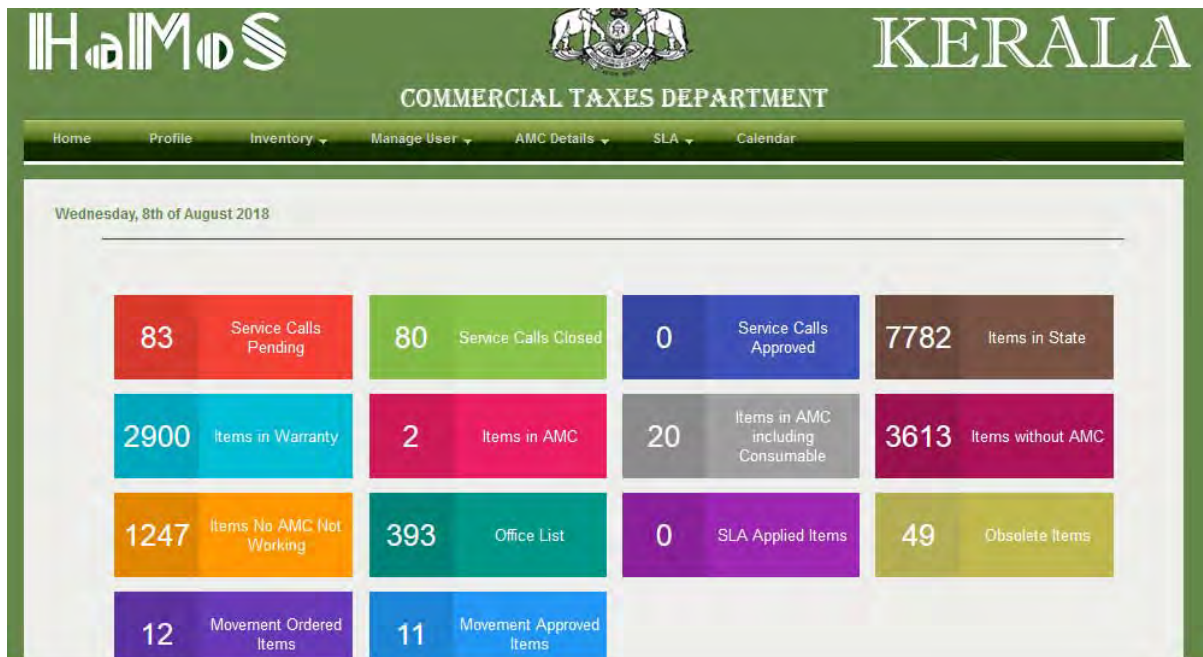

obsolete equipment marking and correction in maintenance/supplier was made available in the new version.

Features

- Simple and user friendly system.
- Details once entered cannot be deleted at any user level
- Represents the Online stock register
- Electronic Items, Furniture, Vehicles etc are maintained using this software by many departments
- The number of ICT equipment present in the department is available at a glance.
- Districtwise and officewise distribution of equipment is available. Certain reports available in HaMoS is attached as Annexure 1, 2, 3 and 7)
- Details of maintenance/warranty are available at each office and at headquarters.
- Dealers can register complaints of the equipment with the concerned vendor.
- Centralised analysis of the equipment for AMC or new purchases can be made without gathering data from the end user.

Current Status

AMC of a portion of the ICT equipment expired on 22/01/2018 and the updated data in HaMoS at present is as shown below. The obsolete items need to be excluded from the stock which is yet to be done.

Purchases

Bulk purchases of equipment made by the department from 2009 are listed below:

Year	Equipment				
	Desktop	Laser Printer	Dot Matrix Printer	Laptop	UPS
2009	681	115	297		682
2011	7				
2012	965				
2013				126	
2014	771	718			
2015	30				
2016	7				
Total	2461	833	297	126	682

Maintenance details of Computers in bulk purchase

Warranty/AMC Expired

AMC Guidelines by the Government

As per GO(P) No:26/2005/ITD dated 24/12/2005 of Information Technology(B) of GoK, specific rules for the buy back and Annual Maintenance Contract of the ICT equipment has been laid down by the government.(Annexure 4) For systems with one year warranty, the rate of AMC is 6% of Purchase price and with every year, it increases by one upto 3 years. For any further years, the AMC rate is 8%. For equipment with 3 year warranty, maximum AMC rate is 8% of purchase price.

Equipment in AMC

AMC was awarded for working Desktops, Printers, Scanners, UPS and LAN Switches to M/s ACCEL Frontline Ltd. The equipment purchased prior to 2009 is also included in the list of AMC. Later, desktops with make HCL whose warranty expired during 2015 was also included in the list. The list of items in AMC as per HaMoS was as shown below. It included all the equipment which were in AMC awarded by Headquarters and districts.

District wise Item List (AMC)		
Sl No	District	No of Items
1	Trivandrum	267
2	Kollam	64
3	Pathanamthitta	67
4	Alappuzha	114
5	Kottayam	182
6	Idukki	168
7	Ernakulam	309
8	Thrissur	126
9	Palakkad	296
10	Malapuram	108
11	Kozhikode	202
12	Wayanad	134
13	Kannur	214
14	Kasargod	154
15	Mattancherry	198

Replacement Analysis

The AMC for Computer and accessories had been awarded to M/s Accel Frontline Ltd from 23/01/2015 to 22/01/2018.

The specifications of the desktops in AMC are as follows:

<i>Year of Purchase</i>	<i>Make</i>	<i>Processor</i>	<i>RAM</i>	<i>HDD</i>	<i>Age as on Jan 2018</i>
2012	HCL	Core i3	2 GB	320 GB	6 Yrs
2009	Acer Powerseries	Core 2 Duo	2 GB	320 GB	8 Yrs
Before 2009	Keltron	P4 2.4	512 MB	80 GB	➤ 9 Yrs

Points to be noted while renewing AMC

- The desktops of make Keltron and Acer Powerseries were purchased before 2010 and had served a lifespan of more than 7 years. Feasibility of continuing AMC of these desktops is to be examined or the department should go for replacement of these machines with new ones.
- Most of the laser printers in AMC are more than 7 years old.
- As in the case of printers, the purchase of high capacity centralised UPS also need to be considered instead of purchasing individual small UPS. UPS that could support a whole office will be feasible in the case of offices housed in government owned building.
- Most of the LAN Switches in AMC were also purchased before 2009.
- The additional requirements received from offices should also be considered while going for procurement of new equipment.

Procurement/AMC Schedule

	Year		
Equipment	2017	2018	2019
Desktop			
Keltron		AMC Due	
Acer PowerSeries		AMC Due	
HCL		AMC Due	
Acer Veriton			Warranty Due
Dell Optiplex	Warranty Due		
Laptop			
HCL		Warranty Due	
Printer			
Lexmark		AMC Due	
Ricoh			Warranty Due
UPS		AMC Due	
LAN Switches		AMC Due	

Remarks and Suggestions

- Most of the equipment purchased prior to 2010 are now 7 years old and are becoming obsolete. New purchases need to be considered for replacing the old ones. The additional requirement of equipment received from offices also needs to be considered.
- There are desktop purchases before 2010 which need replacement after the AMC period. Systems which were not working during the time of awarding AMC were excluded from AMC. Among the total number of desktops in AMC, 965 HCL systems were purchased on buyback scheme during 2012. All other systems were purchased prior to this period and are more than 7 years old.
- Most of the Dot Matrix printers purchased during 2009 have become obsolete and laser printers have been purchased in most offices. 718 laser printers are in warranty and the other working old printers are in AMC. The feasibility of purchasing individual printers needs to be analysed as the lifetime of printers in AMC have crossed 7 years. Multi-function printers connected to network

which can be shared between all the computers in an office may be considered instead of purchasing laser printers for each desktop PC. Commissioner has suggested considering purchase of printer workstations instead of individual printers in future procurement.

- Maintenance of 600VA UPS for individual computers may not be feasible as evident from the earlier purchases. 2/3/10 KV UPS as suitable for the entire office may be considered so that the maintenance for only a single UPS per office can be carried out locally/centrally.
- As per the G.O for AMC mentioned above, the AMC charges for all the desktops, printers, scanners, UPS and LAN switches will be a maximum of 8% of the purchase price. We need to find out which is cost effective - purchasing new equipment or giving AMC for the old equipment.
- With the advent of time, the electronic product life spans are getting shorter. On the other hand, the technical specifications of the devices have significantly improved over the last five years, which makes a device purchased before 6 years far inferior to a recent release.
- Equipment after the expiry of warranty period of 5 years is more prone to frequent failures compared to newly purchased equipment. As per the IT hardware policy in Government Secretariat, issued by IT Department, Govt. of Kerala vide G.O(Ms) No:37/2015/TD dated 07/09/2015(Annexure 5), the life time of desktops and printers for replacement is fixed as 5 years.
- For awarding of AMC, the usual procedure is that the vendor will conduct a survey of the equipment present in all offices and will consider only the working equipment for AMC. Defects of the non-working machines will be ascertained and only the machines with minor defects will be considered for inclusion in AMC after repair. A price will be fixed for repairing the non-working machines with major defects and then they will be included in AMC. If the price is not acceptable by the client, the non-working machines will remain as e-waste in offices and are reported in HaMoS as 'Not Working No AMC'. The spare parts cost will be high or spares parts may not be available for outdated machines. The whole process consumes much time and involves numerous time consuming procedures.

- The total cost involved in awarding AMC after the whole process is not found cost effective compared to the new purchase of the similar equipment as the final result will be as shown below:
- *In AMC – AMC Charges+frequentfailures+outdatedspec+delay in repairing time due to non-availability of outdated spare parts.*

In New Purchase –Price+Nofailure+improvedSpec+OEM support for warranty period

Considering the above aspects, it is feasible to go for procurement of new equipment on buy back basis once the warranty of 5 years is over or after the expiry of current AMC.

Challenges

The Asset Management Software was implemented in the department much later after the purchase of equipment in bulk quantity. Majority of the equipment have served a lifespan of more than 7 years and have become obsolete. Since a number of old equipment were not in AMC and were not working, many of them were lying idle. Identifying these non-working machines and accounting the same in HaMoS was a difficult job. Also, the correction in the maintenance and supplier details of equipment once entered was not possible. The removal of duplicate or wrong entries was also impossible at the user level. The addition of old equipment in HaMoS from sub offices and data entry mistakes was a recurring process. The details of mistaken data were collected from sub offices and were forwarded to NIC for removal. Then the correct entries were made from offices. If the transfer of equipment between offices is accounted, it will result in duplication which prevented the updation of new location of the equipment.

The practical difficulties in maintaining the software was communicated to NIC and the second version of the application was released during October 2017. In the new version, the facility to transfer equipment between offices was added. Also, the option to correct the mistakes in maintenance and supplier fields was enabled till a

service call is registered against the equipment. The facility to mark systems as obsolete was also provided.

In order to fine tune the equipment data in HaMoS, the details of desktop data were communicated to the districts for verification and confirmation. The corrected data received from the districts were consolidated and analysed with the employee data for arriving the additional requirement of desktops in the department. Annexure 6 lists the desktop data analysed for additional requirement. Similar procedure is required to be done for all equipment present in the department to fine tune the HaMoS database.

Next steps

Department has decided to replace old desktops on a buy back basis. After procurement, the details of the new desktops are to be updated in HaMoS. It has been decided to log service calls of new equipment through HaMoS so that the faulty equipment details present in an office are available for the service of the particular vendor in their HaMoS login. The obsolete systems replaced with new machines need not be considered in the stock inventory of the department. The data related to such equipment has to be marked as obsolete in HaMoS.

The reconciliation of equipment other than desktops is being done in HaMoS by collecting the details of physical stock actually present in the offices and analysing the same with that present in HaMoS.

Department is also following up upgradation of lease line from copper to fibre optic cables, speed to next higher levels and Centralized UPS in office complexes.

Future road map and conclusions

1. The details of ICT equipment present in the offices all over the state has been updated in the centralized asset management system –HaMoS – as reported by the district deputy commissioners. The feedbacks from the users were communicated to NIC for better tuning of the software and the second version of HaMoS was released during October 2017. The software can be further improved to suit the requirement of SGST department with the inclusion of MIS reports which could aid in decision making for future procurement and awarding of annual maintenance contract.
2. The HaMoS shall be regularly used by all the field level and District level officers. The respective officers should ensure that all the utilities of the system are used. This will ensure updation and avoid piling of back log work.
3. ITMC wing shall bring out quarterly synopsis of district wise broad points regarding hardware and software such as down time, faults, rectification, troubleshooting, etc and share that with the Dy Commissioner so that they will take timely actions regarding the IT equipment.
4. At the State level and field level the concept of Quality and cost OPTIMIZATION to be put to practice.
 - a. The obsolete technology, recurring costs of consumables etc to be analysed and worked out. This will enable to take decisions regarding upgradation of hardware / software with the cost benefit analysis. In absence of this, it becomes extremely difficult to do procurement. Eg using old printers by buying cartridges is more costly than using new printers as the costs of latest equipment and consumables have come down.
 - b. Use concept of Work Station- instead of stand alone products, one may work out heavy duty better product so that many can use. Eg Heavy

- duty printer/ scanner/ copier – group of Desk top can use as one equipment.
- c. Wherever possible go for better UPS / centralized LAN especially the complexes where groups of offices are existing in own building rather than stand alone UPS or no UPS situation.
5. Any request for any procurement should not be entertained without getting the total picture with respect to that particular equipment.
6. There should be general policy initiatives regarding the equipment and specification. For certain departments like State GST department some modification in specification may be allowed as they do high end computing to find out suppression, evasion of tax.
7. All the hardware and software procurement should be done by keeping in mind there will not be forced obsolescence within a very short span of time, with the concept of no vendor locking, open source platform and preferably with one time costs. Otherwise with some of the licensed software, it becomes huge financial burden and vendor locked situation.
8. The Department must ensure that whenever any software is developed the source code and IPR shall remain with the Department Govt of Kerala.
9. Regarding hardware, the warranty and AMC to be properly monitored by the users and District level Coordinators. The preventive maintenance concept may be put to practice.

Acknowledgement

The State GST Department during VAT regime was having around 400 offices including check posts. With advent of GST regime, the check posts are abolished, but still the number of field offices remained very high. From VAT regime onward the tax administration is Information Technology enabled. All these offices are having computers to ensure efficient use of Kerala Value Added Tax Information System where all the dealers file their returns and all other statutory documents etc.

It was experienced that even though the Department has gone ahead with implementation of IT enabled services (ITeS) to stakeholders mainly to Dealers and people, the equipment management was not proper. This has posed a lot of difficulty while understanding the field level issues and further capital investment for improving the hardware and software in the Department.

From 2015 onward series of initiatives such as procurement of servers, development of software, implementation of e office etc were taken and out of those initiatives, one of the initiatives was to develop Hardware management system. During the discussions and implementation of e-Office in the Department this issue was discussed with NIC and ShriAjith Kumar Technical Director NIC and his team has readily agreed to facilitate implementation of HaMoS. Subsequently, series of actions are taken at state head quarter and district head quarter level by all the designated officers and this management information system is developed.

As we go forward, this system will further get strengthened. I appreciate the works done by all the HaMoS coordinators in the district, ITMC team and others who have actively taken interest to develop the system. I also thank NIC for providing the software and facilitating implementation.

GOVERNMENT OF KERALA

Abstract

Information Technology Department – IT Hardware Policies in Government Secretariat
– Approved – Orders issued.

Information Technology (IT Cell) Department

G.O.(Ms) No. 37/2015/ITD

Dated, Thiruvananthapuram, 07.09.2015.

Read: - Minutes of the meeting of the Apex Committee on e-Governance held on
16.07.2015.

ORDER

Government have provided various IT devices such as Laptop Computers, Tablets, Notebooks, Desktop Computers, Printers, Scanners, Data cards etc. to various categories of Officers in the Government Secretariat as part of e-Governance. But instances are there that these equipments were purchased without properly considering the actual requirement and resulted in under utilization of the same. Hence a common policy is necessitated for the effective procurement, optimum utilization and proper maintenance of these devices. The Apex Committee on e-Governance held on 16.07.2015 approved the IT Hardware Policy for Government Secretariat as annexed to this order.

Government have examined the matter in detail and are pleased to approve the IT Hardware Policies on (i) Laptop Computer (ii) Data Card (iii) Desktop Computer (iv) Printer & Scanner for Government Secretariat annexed to this order.

(By Order of the Governor),

P H KURIAN

Principal Secretary to Government

To

All Departments in Government Secretariat
✓ The Director, Kerala State IT Mission, Vellayambalam, Thiruvananthapuram
The Principal Accountant General (Audit) Kerala, Thiruvananthapuram
The Principal Accountant General (A & E) Kerala, Thiruvananthapuram

Annexure

IT Hardware Policies in Government Secretariat (Desktop/Laptop Computers/Data Card/Printer/Scanner Policy)**a) Laptop Computer Policy**

1. The Laptop provided to the eligible officer shall be treated as official equipment in possession of the officer.
2. The officers of and above in the level of Secretaries may be provided with laptops.
3. The officers below the level of Secretaries may be provided with laptops on specific request on recommendation with proper justification by their Secretary. The final decision on the same may be taken by the Principal Secretary (IT). This may be allowed only if e-Office is being used extensively by the Department.
4. Laptops based on approved common specification may be used for allotment in the above manner. The specification will be finalized by the IT (IT Cell) Department. Finance Department may delegate the power of procurement and supply in accordance with rules to Principal Secretary (IT).
5. The codal life of Laptop will be considered as Three (3) years. The request for replacement of a laptop will be considered only after three years. In this case the recommendation of the concerned Secretary is necessary. The necessity to replace a laptop before three years due to technical reasons shall also be considered, subject to the Technical verification of the TSP and certified by the IT Department.
6. All aspects of this policy shall also be applicable on existing Laptops which were provided to the Government Officers earlier.

b) Data Card Policy

After the implementation of e-Office, Data card become an inevitable device for Secretaries / Higher Officers for carrying out office work during travel or out-of-office period. At present Data Cards are only supplied from BSNL. Based on the suggestions and seeing the service efficiency, the Data Cards from other Service Providers can also made available. Accordingly, following rules are prescribed.

1. The eligible Officers are permitted to opt data cards at their choice. They are eligible for an amount of Rs. 999 per month for Data usage. The same amount shall be reimbursed from General Administration (House Keeping) Department based on the self-attestation with signature of the officer concerned. In this case, the bill of data usage need not be produced.
2. The Device for the Data Card (*dongle*) shall be provided by the IT Department. In any manner, SIM card for data usage shall not be provided by Government.

c) Desktop Computer Policy:

1. Desktops based on approved common specification may be used. Any request for Desktops other than the common specification has to be substantiated with a detailed note outlining the necessity for the request. The final decision on the same may be taken by Principal Secretary (IT).
2. Request for high-end Desktop above Rs. 40,000/- may be sanctioned after taking concurrence of the Finance Department based on the necessity.

3. The Officer can request for replacement of a desktop only after five years. In the case of necessity to replace a desktop before five years due to technical reasons, the same must be verified and certified by the IT Department / IT Cell.

d) Printer & Scanner Policy

1. The officers in level of Secretaries or above may be provided Printer and Scanner.
2. The officers in the level of Under Secretaries / Deputy Secretaries / Joint Secretaries / Additional Secretaries / Special Secretaries may also be provided one Printer / Scanner. No additional Printer shall be provided to that Office. The Printer will be shared with the Computer of Confidential Assistant / Personal Secretary of the Officer concerned.
3. Office sections of all Departments may be provided One Printer. Scanner shall be provided based on the requirement of e-Office.
4. Only one printer shall be provided to the sections. The printer shall be attached to the system of the Computer Assistant and the same may be shared with the rest of the systems in that section. In any manner, additional printers shall not be provided to the sections.
5. Printers and scanners based on approved common specification may be used for allotment in the above manner. Any request for printers / scanners other than the common specification has to be substantiated with a detailed note outlining the necessity for the request. The final decision on the same may be taken by Principal Secretary (IT).
6. The printers and scanners must be used exclusively for official purposes.
7. The Officer can request for replacement of a Printer / Scanner only after five years. The necessity to replace a printer/Scanner before five years due to technical reasons, the same must be verified and certified by the IT Department.
8. Department must make efforts to limit paper usage by taking advantage of double-sided printing.

e) Common Guidelines

1. Do not claim Laptop / Desktop Computers / Data card as a matter of right on the strength of this Policy.
2. The Officer is required to return all the devices received from IT Department on following occasions
 - a) On retirement.
 - b) On Deputation
 - c) On LWA /any other leave for more than 3 months.
 - d) On transfer outside Secretariat

Centralized e-procurement of the State- Orders

GOVERNMENT OF KERALA

Abstract

Electronics & Information Technology Department – Centralized e-procurement of the State – Procedures in using the Government portal and Duties and responsibilities assigned to the service provider M/s Keltron – Guidelines - Approved - Orders issued .

ELECTRONICS & INFORMATION TECHNOLOGY (IT CELL) DEPARTMENT

G.O.(Rt) No.25/2018/ITD

Dated,Thiruvananthapuram,01/02/2018

Read:- G.O(Ms)No.24/2017/ITD dated 18/11/2017

ORDER

As per the Government order read above, Government accorded sanction for implementing a Centralized Procurement System in Government for the purchase of commonly used Hardware items such as Desktops, Laptops, Printers, Scanners etc through an online Government portal (<http://eprcs.kerala.gov.in/>) developed for this purpose. M/s Keltron is entrusted as the service provider, who will derive rates for the commonly used IT equipments, through competitive bidding process. The committee constituted under the chairmanship of Chief Secretary shall be monitoring the progress of the scheme after its implementation.

In this regard, Government are pleased to issue general guidelines, attached as Annexure to this order, detailing the procedures to be followed by State department/PSUs/LSGIs and autonomous bodies for placing the work order in the Government portal and its functionalities and also the duties and responsibilities assigned to the service provider(M/s Keltron).

ANNEXURE

2/5

**GUIDELINES ON THE METHODS AND PROCEDURES OF CENTRALIZED PROCUREMENT
SYSTEM INTRODUCED BY GOVT.OF KERALA**

General Guidelines for departments / LSGs/government agencies etc.

- 1) The Departments registered for procurement through the Govt. portal www.cprcs.kerala.gov.in, will be provided with a user name and password for login.
- 2) The designated official from each Department/PSU/LSG etc and registered in centralized procurement PORTAL shall upload the IT Hardware requirement in the online portal developed by KSITM/KELTRON, as per the specification fixed by KSITM, for *initial demand aggregation*.
- 3) On finalization of the rates for commonly used IT hardware, Departments can choose the items required for **procurement** from the portal. Departments will have to **fill up a questionnaire** at the PORTAL to suggest appropriate specification of the PC / Laptop required for the department. [For varied specification, refer para 12].
- 4) After choosing an item from the portal, the Department/PSU shall generate a proforma invoice from the portal. This is for getting necessary approvals from the appropriate authority for purchasing the items. The department / purchasing officer shall place the order to KELTRON through the portal. The total value of the product as mentioned in the portal shall be transferred in advance, to KSITM TSB.Account opened for this purpose (details will be shared in the portal) , at the time of placing the order. The total value of the item will be inclusive of all taxes and service charges applicable to KELTRON. Necessary provisions has been added in the portal. A confirmation statement will be generated by the portal for record purpose.
- 5) After items are delivered at site, respective office authority shall countersign the delivery chalan.
- 6) Department/PSU Officials shall also countersign the installation certificate produced by KELTRON which is already verified and signed by their engineer.
- 7) Department/PSU official shall use Complaint Management System for the technical support during warranty period or KELTRON **CALL CENTRE** (Toll free number) or mail to rcservice@keltron.org. [Call Centre number will be available in the portal]
- 8) Department official requested to inform, If any issue remains unsolved within the specified time-lines (Including RFP Timeline) , The matter may be informed to KSITM.
- 9) PORTAL will have provision for department to reject whole or part of the items supplied by the supplier, if do not conform to the specification or conditions.

- 10) KELTRON shall issue a final tax invoice to the department for record purpose.
- 11) Departments need not execute separate agreement with KELTRON / supplier in this respect.
- 12) If the department indent for **higher specification**, then minutes of the departmental Technical Committee which recommended a higher specification to be uploaded. If the product with specification requested is not available in the portal then KELTRON will process and tender separately for such items. Department will also have the option to purchase those items from **GeM** with approval of the appropriate authority / SPD.
- 13) The rates are derived only for commonly used items such as PCs, Laptops, Printers , Scanners, Photocopiers etc. For different line of items not included in this centralized system, departments may continue to follow the present practice of procurement as per rules.

DUTIES & RESPONSIBILITIES OF THE SERVICE PROVIDER (KELTRON)

- 14) RFP Preparation, Specifications and SLA shall be in consultation with the Technical Committee of KSITM.
- 15) M/s. KELTRON shall publish e-tender from OEM Bidder/Authorized supplier under the monitoring of KSITM.
- 16) The EMD for the tender is fixed at Rs. 5 Lakhs (max) for different line of items and Tender Fee shall be Rs.25000/- + GST as applicable.
- 17) Pre- Bid meeting shall be arranged to avoid any vendor locking situations. Decision to change the RFP terms and conditions and Specification shall be only in consultation with the Technical Committee of KSITM.
- 18) Rate Contract will be valid for 6 months from the date of signing of the contract.
- 19) Evaluation of Bids shall be in consultation with Technical Committee of KSITM.
- 20) KELTRON will upload the IT Items Rate details with the Price of each item in the Online Procurement Management portal.
- 21) Orders shall be placed on three Bidders viz. L1, L2 and L3 Bidder in the predetermined ratio i.e. 60% quantity on L1, 30% on L2 and 10% on L3 after acceptance of L1 price by L2 and L3 Bidders. In case if L2, L3 does not agree to match the price of L1, the shares of L2 and L3 shall be awarded to L1 bidder. If the L1 bidders fail to supply the item, the party shall be blacklisted and EMD/SD/PBG will be forfeited. SLA and Contract agreement shall be executed by KELTRON with L1,L2 and L3.

3

4/5

- 22) KELTRON shall issue purchase order to OEM/Bidders/partner after obtaining order from Department/PSU. Supplier shall deliver the items onsite and provide comprehensive onsite support for hardware equipment.
- 23) The complete details of hardware items including Item Description, Serial Number, Make, Model Number etc shall be available in the online portal.
- 24) KELTRON engineer will visit the site of installation, verify and sign installation certificate, submit to departmental official for counter signature.
- 25) Countersigned Delivery chalan and installation Report of the items and other details shall be uploaded in the online portal, by KELTRON. [Initially these documents will be signed physically, but digitally signed in the next phase.]
- 26) Open source Device Compatibility issues to be addressed by KELTRON with support of KSITM / ICFOSS.
- 27) Installation Verification team shall consist of Supplier, KELTRON engineer and Department /PSU official.
- 28) Installation details shall be made available in the Online portal and each member of the team shall certify the equipment/ items received as per the tender Specification.
- 29) KELTRON Engineer shall upload the Photo of equipment in the portal till geo-tagging facility is ready in the PORTAL.
- 30) Supplier shall provide complete support for Hardware and OS issues and resolve them immediately.
- 31) If any service calls / complaints from departments , KELTRON shall raise tickets with OEM / Vendor and make entries in the PORTAL for SLA calculations.
- 32) KELTRON shall provide the support for various softwares, Browsers and its versions, DSC, Office suit, PDF Reader Plug-in like Java, etc related issues, Virus/Malware Removal, etc.
- 33) Once the department/ PSU confirms the completion of installation, KELTRON shall submit the letter to KSITM with Department/PSU Letter, Invoice and Installation Certificate for release of payment.
- 34) KSITM will transfer the amount after necessary internal approvals.
- 35) KELTRON shall release the payment to supplier within the prescribed time.
- 36) The penalty with respect to the service delivery, will be as per the RFP Finalized by KSITM Technical Committee.
- 37) For the issues outside the scope of OEM/Supplier (like various software, Browser, DSC, Office, PDF Reader Plug-in like Java, etc and related issues, Virus/Malware Removal, etc) KELTRON engineer shall provide full support. Penalty in this regard will remain the same

32562/2018/T DSLR

as applicable to the OEMs. The maximum time resolution for solving technical issue is 24 Hours. If the issue remains unsolved for more than 24hrs (working hours) from the time of service call, Rs.100/- (or as refixed by KSITM) shall be deducted as penalty for each day from the 2nd day onwards. Maximum penalty is capped to 2% of the product value of the item to which penalty is applied.

38) The Online portal shall have the provision to calculate the penalty quarterly. KELTRON shall deposit the penalty amount to KSITM TSB Account /Govt Treasury.

39) KELTRON shall provide the Application admin user account to KSITM to monitor the activities. The user account shall have full permission to verify all activities in the portal.

40) KELTRON shall sign an MOU with KSITM in this regard.

General

41) Updations in the guidelines, if any, will be issued by Director, KSITM and will be uploaded in the Portal.
